

Last June you pledged to buy a certain number of War Savings Stamps. Let everyone make good their pledge, so far as possible, before January 1st. Your Government needs the money to bring our soldier boys back to their waiting mothers.

The boys "over there" have given this pledge to their country: "In consideration of the cause of human liberty I give, grant, sell and convey my right to my whole body; my longing to live; my will to love; my chance in life."

And they have already made good their pledge.

To put Vermont in the front rank in meeting the W. S. S. pledges the United States Treasury Department asks all to make good their pledges for the year by January 1st.

"Clean Up Your Pledge by January 1st"
